

# Knowledge Panels (Lite) and Entity Pages

Meeting with D&A User Reps  
8/23/2021

# Overview

- Recap of goals
- Demo
  - Subject and Author
    - Knowledge panel
    - Subject info page
- Mockups
- Discussion

# Recap

- Provide additional context around “authorities”
  - Help end-users disambiguate, situate
  - Browse related people and subjects
    - In catalog as well as external
- Enable navigation through concepts
  - Broader and narrower
  - Times and locations
- Link back to catalog and other library resources

# Approaches

- Extension of features already in the catalog
  - “Info” button for authors
  - Author and subject browse pages
- Knowledge panels
  - Using “info” button
  - Additional context and relationships
- Author and subject pages
  - Related authors and subjects
  - Library, digital collections, and repositories

# Knowledge Panels Lite

- Usability and Cornell focus group feedback
  - Useful feature
  - Streamline information
- Features (or similar) in use in multiple other institutions/systems
- Help end-users disambiguate, find related people and works
- Include ***more granular control*** over what information is displayed
- Additional possibilities: facet search result, autosuggest selection

# Subject and Author pages

- Bring together information from
  - Catalog
  - Library data sources (i.e. digital collections, repositories)
  - External data
- Provide context and link back to results and related authors and subjects
- ***Usability testing results***
  - Clarification around labels and sources
- ***When data is not available***
  - Not display specific sections

# Mockups

- Consistency across author and subject page design
- Two different examples
  - Making author pages consistent with current subject page design
  - Making subject pages consistent with current author page design

<https://wiki.lyrasis.org/display/LD4P3/DASH%21+Mock-ups>

# Feedback and Configuration

- Feedback and information
  - Editing information in authority/source
  - Relaying to catalog team through current mechanisms
- Configuring display
  - By individual case
    - URI, data source, property
  - Enabling or disabling feature
- Requires a larger conversation

# Implementation Possibilities

- Features can be implemented independently or in isolation
- Knowledge panels: Client-side work that can be configured further to show/display info. Does not require additional back-end work.
  - Sources: Library subject and author browse, Wikidata
- Author pages: Client-side work
- Subject pages: Requires additional information to be indexed and available (or separate indexes)

# Demo Server

- Demo server URL : <http://ld4p3-web.library.cornell.edu/>
  - Available weekdays during work hours
  - Can be made available outside that window as well
  - Prototype so “there will be bugs”
- Requires Cornell VPN (both on and off-campus to access)
- If problems accessing, please let us know
