

South Central States Fedora Users Group

The South Central States Fedora Users Group (SCSFUG) works to boost, support, and educate the local Fedora user base, and promote the adoption of Fedora. The organization seeks to facilitate collaboration between member institutions in order to realize economies of scale in development projects and prevent duplication of efforts. We encourage the participation of everyone in the region both currently using Fedora or considering using Fedora for management of digital assets as a repository or archive.

Join our [Google Group mailing list](#) or the #scsfug channel on [Fedora Repo's Slack](#) to receive updates!

Co-chairs:

Term	Name	Affiliation
