

Adoption Materials

You may be asked to provide materials making the case for VIVO. Materials are described below.

The Materials

Flyer

The [VIVO Flyer](#) is a PDF designed to be printed two-sided on 8.5" by 11" paper. The VIVO flyer describes the VIVO approach, benefits of VIVO and shows sites that use VIVO. It is consistent with the new VIVO web site. If you would like to distribute the flyer card at your event, download the PDF and have it printed two-sided on glossy paper at your local print shop.

Technical specs

Current technical facts about VIVO are available in a concise format online, or as a [downloadable PDF](#). Overview technical specifications include a basic description, history, a typical product use case, an architectural overview, key features and more.

Palm Card

The [VIVO palm card](#) is a 3 by 5" PDF designed to be printed on card stock. Reflective of the web site, the palm card can be distributed at conferences and other events. If you would like to distribute the palm card at your event, download the PDF and have it printed two-sided on card stock at your local print shop.

Conference Card

The conference card is a 3 by 5" PDF designed to be printed on card stock. Focused on the conference, the conference card can be distributed at events and other conferences. If you would like to distribute conference cards at your event, download the PDF and have it printed at your local print shop, or contact the conference organizers.

Powerpoint

The [VIVO Powerpoint](#) is an overview of VIVO and its value to academic institutions seeking to represent their scholarly work.

White paper

The VIVO white paper is a PDF designed to be printed on 8.5" by 11" paper. The white paper provides an overview of VIVO with references, designed for a reader at an academic institution.

The VIVO Book
