Notes

Catch-up, Announcements

- The DCAT Group met on Oct. 10: DCAT Meeting Notes#2017MeetingNotes; the group discussed the DSpace Bitstream Format Registry and Levels of Support. Tim suggested that forming a small workking grroup to continue the discussion might be useful.
- Carol reminded that at our last meeting we agreed to work toward developing public documentation of what will be "in" DSpace 7 towards the end of 2017.

Determine best time for future meetings

The group agreed to change the bi-weekly DSpace 7 Outreach meeeting time to 11:00 ET; next meeting Oct. 2

There are some conflicting examples in UI examples of inspirational design and functionality

- Suggestion that generic XML JSPUI UI examles should be included in UI examples of inspirational design and functionality
- Bram kindly volunteered to sort and reorganize to make this a more useful refence document (completed) for developers

Review current DSpace 7 UI Mockups and provide feedback for developers.

Andrea led a discussion of the submission Wizard UI mock-up: Submission/Workflow functionalities

Feedback from the discussion is included at the bottom of the page: Submission wizard

Everyone in general likes a gmail lik approach to auto capture/save of iterative submission changes/edits.

Action Items

Collaborate with the tech team to develop documentation of what will be "in" DSpace 7 for distribution–late 2017 time frame		All
