Discussion items

Item	Who	
Announcements or news to share	Carol	<ul style="list-style-type: none">• Sprint with 8 developers from around the world, code fixes, underway (blog post: http://duraspace.org/announcing-the-first-dspace-7-virtual-development-sprint-may-7-18/). This is the first DSpace community sprint, all developers are new to the DSpace code base. Tim is providing information and support.• Integration with Open Aire, University of Minho https://dev4.rcaap.pt/oai/request?verb=ListRecords&metadataPrefix=openaire4 https://dev4.rcaap.pt/oai/request?verb=ListRecords&metadataPrefix=openaire4&set=com_123456789_1462 <p>Documentation of this DSpace 5 and 6 initiative is to come. Aim is to include functionality in DSpace 7 as well.</p>
<p>DSpace 7 Update</p> <p>The DSpace Steering Group has been discussing whether to potentially expand the scope of DSpace 7 to include more new features such as support for storing things like Authors (to create Author Profile pages, like Bepress, etc), and some other objects that tend to be more CRIS-oriented. These ongoing discussions may mean that DSpace 7 is not "just" a new UI on existing features—what we have been focusing on for "What's in DSpace 7".</p> <p>The Steering Group has another meeting scheduled to discuss further and work towards making a decision—not sure when this decision will be made. We might want to hold off on publishing "What's in DSpace 7" until this discussion completes --- we can still finalize the document, but may want to just hold it until entities work is finalized.</p> <p>https://docs.google.com/spreadsheets/d/18brPF7cZy_UKyj97Ta44UJg5Z8OwJGi7PLoPJVz-g3g/edit#gid=0</p>	Tim	<p>Full update and demo planned for OR in early June; the DSpace 7 tech team is small, browse and search completed; submission in process</p> <p>Steering Group has been discussing entities working group conclusions (DSpace Entities Working Group (2017-18))—researcher profiles, groups, grants and funder info—would like to move this work forward into the DSpace 7 release, need additional funding and/or developers to build out a prototype.</p> <p>Working on segmenting out the entities work. Expect a statement from the DSpace 7 steering group prior to the Open Repositories Conference.</p> <p>Entities group—build an extendable model for 3 entities</p>

<p>Discussion—2017 DSpace Annual Report</p> <p>The Fedora Project Leadership Group recently published the Fedora 2017 Annual Report. A PDF of the report can be downloaded from the Fedora wiki.</p> <p>Would a similar report be of interest to the DSpace community and if so could this group facilitate development of a manuscript?</p>	<p>Carol Minton Morris</p>	<p>Too late, plan the next one; define a structure; some things to report; important to have this; need to work with others—this group cannot be totally responsible; define structure, metrics, info about types of DSpace instances; can do it, but not alone</p> <p>Collective effort—steerers, DCAT, user groups, service providers—it is not too late, shoot for May in 2019 annual cycle based on 2018 structure</p> <p>One or two people need to own this</p> <p>Tim keeps a running list of initiatives on the wiki; Strategic Planning</p>
<p>Revise "What's In DSpace 7" doc to emphasize/clarify "core features IN PROCESS</p>	<p>José Carvalho</p>	<p>presented at DCAT 1.0 version can accommodate other features; ready to define next steps/include entities initiative; promote in the community in different countries; open repositories in June</p>
