ARK Alliance Advisory Group Introductions

John Chodacki
Director, University of California Curation Center
California Digital Library

CDL - California Digital Library

CDL provides transformative digital library services, grounded in campus partnerships and extended through external collaborations, that amplify the impact of the libraries, scholarship, and resources of the University of California.

Four main programs:

- Publishing, Archives, and Digitization
- Discovery & Delivery
- Collections & Licensing
- UC Curation Center (UC3)

UC3 - UC Curation Center

Areas of focus:

- Research data management
- Data publication
- Data metrics
- Persistent identifiers
- Digital preservation
- Data/software skills training for librarians

CDL and persistent identifiers

- EZID service
- DataCite membership and board participation
- Crossref membership and board participation
- Research Organization Registry (ROR) leadership
- ORCID consortium
- PIDapalooza organizing committee
- Originator of ARKs/N2T
- Participation in ARK Alliance Advisory Group & ARKA working groups

CDL and ARKs

- Originators of ARKs
- Member of ARK Alliance
