## Minutes

### Outstanding issues on API spec

- [Privacy and security settings](#)
  - Should we add security/privacy specifications ?
  - Call attendees should review this issue and approve/disapprove
  - [Clarify LDP 5.5.1.2](#)
    - Should we specify a behaviour or remain silent?
    - [Daniel Lamb](#): we should probably remain silent but this creates problems for swapping out implementations
      - Hard to say now if we will need this down the road
      - Don't use lists with indirect containers
    - Anyone with an opinion should comment on this issue
  - [Revisit PUT for creating new resources](#)
    - Discussion revolves around POST, not PUT
    - Jared will add a comment to try to achieve some consensus
- Say `Expect: 202-digest` intended for use with `HEAD` ?
  - Needs to be summarized so we can proceed to comment further
