

Implementation Calls

These weekly calls are open to anyone and provide a regular opportunity to hear updates from technical VIVO community members working on the core open source project, as well on VIVO implementations at numerous institutions. Calls typically last one hour, and focus on implementation issues. They include web developers, back end programmers, and site administrators. Potential adopters can learn about implementation challenges and opportunities.

2016

- [July 21, 2016](#)
- [June 16, 2016](#)
- [May 19, 2016](#)
- [April 21, 2016](#)
