Change+overall+layout

The screenshot shows a DSpace website layout with several annotated sections:

- (Header):** The top navigation bar containing the DSpace logo, "About DSpace Software", and the text "(Header)".
- (Location Bar):** A box containing "DSpace at My University >" and the text "(Location Bar)".
- (Navigation Bar):** A sidebar on the left with search options (Advanced Search, Subject Search), navigation links (Home, Communities & Collections, Titles, Authors, Subjects, By Date), and sign-on options (Receive email updates, My DSpace, Edit Profile, Help, About DSpace). It is labeled "(Navigation Bar)".
- (Main Content):** The central area with sections: "DSpace is Live" (Welcome to our digital repository...), "Search" (Enter some text in the box below to search DSpace.), and "Communities in DSpace" (Choose a community to browse its collections. Links: Test Community, Tim's Community).
- (Footer):** The bottom bar containing W3C XHTML 1.0 logo, "DSpace Software Copyright © 2002-2007 MIT and Hewlett-Packard - Feedback", and the text "(Footer)".
- (Right Sidebar):** A box titled "This is a default installation of DSpace!" with text about configuration and "RSS Feeds" (RSS 1.0, RSS 2.0).

Files:

`dspace-source/jsp/local/layout/.jsp`

- `dspace-source/jsp/local/styles.css.jsp`

Instructions:

1. Change the HTML in header-default.jsp (Default Header) , footer-default.jsp (Default Footer), location-bar.jsp (Location Bar), navbar.jsp (Default Navigation Bar), and navbar-admin.jsp (Admin Navigation Bar).
2. Change the CSS in styles.css.jsp.
3. Perform the steps in [Rebuild DSpace](#) .

Notes:

- Be careful of moving the search form (in the navigation bar) earlier in the page (e.g. to page-top). This can break the e-person selector in the Administration user interface. Check the DSpace [TechnicalFAQ](#) for possible fixes.
