Steering Group elections will be held this week and next. This week Leadership Group members will elect three new members to the Steering Group. Next week, the community liaisons for the 23 VIVO member institutions will elect two additional members to the Steering Group. Is your organization a member? If not, you can join now. Contact me regarding membership for your organization.

Roadmap Task Force is forming. You may have received a separate email from me regarding the formation of the roadmap task force. The task force will meet over the next three weeks to review and analyze the survey results, develop a high-level roadmap, and present that roadmap to the Leadership Group at their next meeting. A draft charter is available here: [2016 VIVO Roadmap Task Force](#). Please contact me if you are interested in serving on this important task force.

We had very good response to the survey. Thanks to all who responded. Community input is a key element in setting direction for the the project. Thanks again.
