Meetings

03/02

Sprint planning

03/03

- Nianli
 - Yesterday:
 - I was working on [FCREPO-1371 - Getting issue details...](#) .
 - I deployed the war file on the same environment as report.
 - I did see the errors as report at first time. But I don't have performance issue on federated files. Details I will put in JIRA comments.
 - The interesting thing is the error gone after I turned the log to debug mode for fcrepo.log.http.api.
 - Today:
 - I will continue working on this JIRA issue.
 - Help/Blocker:
 - Please help on StreamingBaseHtmlProvider.java line 237, have error: Exception rendering #parse/views/common-metadata.vsl) at /views/node.vsl[line 37, column 13] . But use debug setting in logback.xml, error disappeared,
- Yinlin
 - Yesterday:
 - Work on [FCREPO-1290 - Getting issue details...](#) , add unit test casts
 - Check [FCREPO-1373 - Getting issue details...](#) and post a new comment and wait for response.
 - Today:
 - [FCREPO-1290 - Getting issue details...](#)
- Jared
 - Yesterday:

- Generated a vagrant machine for [FCREPO-1377 - Getting issue details...](#) STATUS with the desired components,
 - Not sure if awoods wants F4 pre-configured to index to Fuseki and/or Solr. So I am leaving it open till he confirms.
- Today:
 - Working on [FCREPO-1357 - Getting issue details...](#) STATUS now with the guidance of one acoburn

03/04

- Nianli
 - Yesterday:
 - Working on [FCREPO-1371 - Getting issue details...](#) STATUS, couldn't replicate the error.
 - After talking with @scossu, found out that he has the errors with million records in repository.
 - Today:
 - Continue working on the same issue, will ingest much more files in repository and see what happened.
 - Blocker:
 - None. If I have, will ask around.
- Yinlin
 - Yesterday:
 - Work on [FCREPO-1290 - Getting issue details...](#) STATUS
 - Add unit test and submit PR-741.
 - Check [FCREPO-1382 - Getting issue details...](#) STATUS and post a new comment and am waiting for response.
 - Today:
 - Discuss with Andrew about JIRA tickets then continue working on it.
- Jared
 - Created PR for [FCREPO-1357 - Getting issue details...](#) STATUS
 - Waiting for some feedback from [Andrew Woods](#) on [FCREPO-1377 - Getting issue details...](#) STATUS
 - Investigating [FCREPO-1362 - Getting issue details...](#) STATUS could use some reference on the use of multi-value properties

03/05

- [Fedora Tech Call](#)
- Yinlin
 - Yesterday:
 - Work on [FCREPO-1290 - Getting issue details...](#) STATUS
 - Finish [FCREPO-1382 - Getting issue details...](#) STATUS, submit PR-742
 - Today:
 - [FCREPO-1290 - Getting issue details...](#) STATUS
 - [FCREPO-1373 - Getting issue details...](#) STATUS
- Jared
 - Yesterday:
 - Finished configuring fcrepo-message-consumer on the vm for [FCREPO-1377 - Getting issue details...](#) STATUS,
 - Today:
 - Trying to add a service script for Fuseki to allow machine restarts.

03/06

- Nianli
 - Yesterday:
 - I finished the final test on [FCREPO-1371 - Getting issue details...](#) STATUS
 - Started the work on [FCREPO-1376 - Getting issue details...](#) STATUS
 - Today:
 - Will try to finish [FCREPO-1376 - Getting issue details...](#) STATUS and start to look at other ticket.
 - Blocker:
 - I have some local work need to be done asap today, but I will make up some time tonight.

- Yinlin
 - Yesterday:
 - Work on [FCREPO-1290](#) - Getting issue details... STATUS
 - Finish [FCREPO-1373](#) - Getting issue details... STATUS
 - Submit PR-743
 - Today:
 - [FCREPO-1290](#) - Getting issue details... STATUS
 - It seems that my logic on the test case is fine as Andrew said in the meeting, however, my setup() is not enough, I reduced the nullpoint error yesterday but it seems other variable still need to have in setup().
 - I will try directly using the setup in ContentRdfContextTest.java and continue working on it.
 - Blocker
 - My mac sometimes cannot build passed using mvn clean install.
 - Spent half day on this issue but still can't make it work.
 - It was build fine time from time, my assumption was memory issue or underline OSX update.
 - Post to IRC but seems no one have similar issues.
 - My work around for this issue was using another Ubuntu to build.
 - My department has agree to upgrade the memory so it should be fine then.
- Jared
 - Yesterday:
 - Finished (hopefully) [FCREPO-1377](#) - Getting issue details... STATUS
 - Today:
 - Working on [FCREPO-1362](#) - Getting issue details... STATUS
 - Need some clarification on comparing JCRNodes vs RDFNodes.

03/09

- Nianli
 - Friday:
 - Finished [FCREPO-1376](#) - Getting issue details... STATUS
 - Have problem with git, will figure out today.
 - Today:
 - Will work on [FCREPO-1386](#) - Getting issue details... STATUS
 - Blocker: none.
- Yinlin
 - Yesterday:
 - Work on [FCREPO-1290](#) - Getting issue details... STATUS
 - Today:
 - [FCREPO-1290](#) - Getting issue details... STATUS

03/10

- Nianli
 - Yesterday:
 - Create pull request for [FCREPO-1376](#) - Getting issue details... STATUS
 - Work on [FCREPO-1386](#) - Getting issue details... STATUS
 - Today:
 - Continue to work on [FCREPO-1386](#) - Getting issue details... STATUS
 - Blocker: none.
- Yinlin
 - Yesterday:
 - Finish [FCREPO-1290](#) - Getting issue details... STATUS and submit PR-741
 - Today:
 - [FCREPO-1366](#) - Getting issue details... STATUS
 - Will use [FCREPO-1377](#) - Getting issue details... STATUS for testing
- Jared

- Finished integration test for [FCREPO-1362](#) - Getting issue details... [STATUS](#) added to PR.
- Working on [FCREPO-1361](#) - Getting issue details... [STATUS](#)
 - Looking to parse out update triples to discover remote subjects. Perhaps a RDFSink.

03/11

- Yinlin
 - Yesterday:
 - Worked on [FCREPO-1366](#) - Getting issue details... [STATUS](#) and used a AWS EC2 Ubuntu instance for testing. The error message was different and reported it in JIRA ticket.
 - Today:
 - [FCREPO-1366](#) - Getting issue details... [STATUS](#)

03/12

- Fedora Tech Call

03/13

- [Sprint Wrap-up](#)
