

Work Sessions

Moving tickets to "done" was taking a long time, so we started bi-weekly work sessions to give the effort a boost. This is in addition to our bi-weekly [working group meetings](#).

The focus is on actually working through tickets as a group and delivering passing PRs by the end of the work session.

Details:

What: Work on these Github tickets: <https://github.com/samvera/samvera.github.io/projects/1>

Where: <https://cornell.zoom.us/j/703126880>

When: *TBD*, See <https://doodle.com/poll/eh3ebeu5imrd6r5z>. Bi-weekly starting the 2nd week of April, 2018.

Who: Anyone interested in improving Samvera documentation. Samvera community members who are *not* part of the Documentation Working Group are encouraged to participate.
