

# Developer Congress - Monday 21st October 2019

The Samvera Community will be hosting a Developer Congress to get together and work on a variety of issues as an effort to introduce newcomers to the codebase, document our code, and continue to improve our software together. It is a companion meeting to Connect 2019 and does not form part of the conference proper; as such, a conference registration is not required to attend.

The following community members will be in attendance to lend their support, if you intend to take part in this event please add your name below:

## Location:

Olin Library ([map](#)) in Instruction Room 3.

## Reminders

- This is a self-organizing working meeting.
- Coffee and bagels will be provided in the morning. For the rest of the day there's a [coffee bar](#) in the library.
- Take a look at the project board and consider whether you want to sponsor a ticket / project (either something on there or something you want to add).

## Schedule

9:00 AM Introductions

9:10 AM Pitches

- MC will walk through items on the board / coordinate that by asking for others to advocate for each item.
- Support one of the ideas on the board or add your own.
- Senior developers please do remember that we are here to onboard people who are newer to the community.

9:30 AM Break into groups

- Arrange sponsors around the room with large post-its or something. Attendees can distribute themselves as desired.

Noon-1:30 PM Lunch (on your own)

1:30 PM Reports from groups (timebox these)

1:45 PM Reconvene into groups

4:30 PM Final report-out

## Attendees

Local host liason: Phil Suda

MCs: Anna Headley and Chris Colvard

Name	Institution
<a href="#">Trey Pendragon</a>	Princeton University Library
<a href="#">LaRita Robinson</a>	Notre Dame
Anna Headley	Princeton University Library
<a href="#">Andrew Myers</a>	WGBH
<a href="#">James R. Griffin III</a>	Princeton University Library
<a href="#">Justin Coyne</a>	Stanford
<a href="#">Tom Johnson</a>	UC Santa Barbara
<a href="#">Chris Colvard</a>	Indiana University
<a href="#">Alexandra Dunn</a>	UC Santa Barbara
<a href="#">Thomas Scherz</a>	University of Cincinnati
<a href="#">Lynette Rayle</a>	Cornell University
<a href="#">Julie Allinson</a>	Notch8

<a href="#">Huawei Weng</a>	UC San Diego
<a href="#">Adam Joseph Arling</a>	Northwestern
Brian Keese	Indiana University
<a href="#">Daniel Pierce</a>	Indiana University
<a href="#">Randall Floyd</a>	Indiana University
Adam Ploshay	Indiana University
<a href="#">Michael B. Klein</a>	Northwestern University
<a href="#">Jason Corum</a>	WGBH
<a href="#">Jacob Reed</a>	University of Utah
<a href="#">Collin Brittle</a>	Emory University

## Issues

We are still populating issues to work on, but you can see the current plan here: <https://github.com/orgs/samvera/projects/4>

If you would like to be an advocate for something please either mention it in the Samvera Slack #developer-congress channel or bring your ideas to the Developer Congress. See you there!
