Outstanding issues on API spec

- [Privacy and security settings](#)
 - Should we add security/privacy specifications ?
 - Call attendees should review this issue and approve/disapprove
 - [Clarify LDP 5.5.1.2](#)
 - Should we specify a behaviour or remain silent?
 - [Daniel Lamb](#): we should probably remain silent but this creates problems for swapping out implementations
 - Hard to say now if we will need this down the road
 - Don't use lists with indirect containers
 - Anyone with an opinion should comment on this issue
 - [Revisit PUT for creating new resources](#)
 - Discussion revolves around POST, not PUT
 - Jared will add a comment to try to achieve some consensus
- Say ``Expect: 202-digest`` intended for use with ``HEAD``?
 - Needs to be summarized so we can proceed to comment further
