2018-06-28 - Fedora Tech Meeting

Time/Place

This meeting is a hybrid teleconference and slack chat. Anyone is welcome to join...here's the info:

- Time: 11:00am Eastern Daylight Time US (UTC-4)
- Audio/Video Conference Link: https://duraspace.zoom.us/my/fedora
  - Dial-in:
    +1 408 638 0968
    +1 646 876 9923
    +1 669 900 6833
    Meeting ID:
    812 835 3771
- Join fedora-project.slack.com on the "tech" channel

Attendees

- Danny Bernstein
- Peter Eichman
- David Wilcox
- Andrew Woods ⭐
- Yinlin Chen
- Jared Whiklo
- Bethany Seeger
- Ben Pennell
- Kevin Ford

Agenda

1. Upcoming Sprints
   a. Please sign up
   b. Sprint 1: Release 5.0
      i. Optimally we start Sprint 1 with a release candidate
      ii. Mostly complete documentation
      iii. Wrap up the compatibility test kit
   c. Sprint 2: (if 5.0 is release) Ecosystem Tools
      i. Camel Toolbox
      ii. Java Client
      iii. Import/Export
   d. What is the best way to prepare as a team?
      i. Proposal: mini sprint for external content and minor spec alignment issues that are coming out of the CTS development.
      ii. Alternative to a mini sprint: form group willing to commit to doing (1?2?3?) of the following small things each week:
         1. work a minor bug
         2. review a documentation page
         3. write a new CTS test (lots of opportunities)
         4. fix an existing CTS test (lots of opportunities here as well)
2. Getting to 5.0 Release Candidate
   a. 5.x Documentation Effort matrix
   b. In progre

   i.

   ii.   Unable to locate Jira server for this macro. It may be due to Application Link configuration.

   c. Remainin

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

   d. All API Alignment Issues

type	key	summary	assignee	reporter	priority	status	resolution	created	updated	due

3. Closing Fixity conversation:
    a. UMD + NLM design collaboration
    b. Andrew's suggestion of a "pluggable module"
        i. (What is a pluggable module in fedora today? Does that notion exist independently of API-X?)
4. <Add your agenda item here>

Ticket Summaries

1. Please squash a bug!

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

2. Tickets resolved this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

3. Tickets created this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

Minutes

Upcoming Sprints

1. Outstanding work
    - Wrapping-up WebACL
    - Compatibility test suite is being actively developed
        - https://github.com/fcrepo4-labs/Fedora-API-Test-Suite
        - Folks are encouraged to pick up items from GitHub issues
    - Versioning - needs further API Alignment
    - Documentation: https://wiki.duraspace.org/display/FF/5.x+Documentation+Updates
2. Continual effort on the above would potentially prepare us for the sprints
3. How do people feel about picking up work leading up to sprint?
4. Could mini-sprints help?
    - Mini-sprint: focused effort on specific tasks in limited timebox
5. Interest in executing on intentions
    a. Planning for the following week could be helpful
6. Team commitments / intentions
    a. Jared to commit 1/2 of Fridays to Fedora items
    b. Ben available on Thursdays (versioning and external-content)
    c. Bethany has availability
7. Priorities

    a. Delta document wiki
    b. Compatibility test suite
    c. Documentation
    d. Fedora implementation

Tickets

1. fcrepo-2742: Allow single-document ACLs using hash URIs for authorizations
   - No GET on /fcr:acl (ticket?) 2806 / 2807
   - PATCH on hash URIs may not have the correct subjects (Peter to create ticket)
   - PUT to /fcr:acl with body not yet supported (Peter to create ticket)
2. fcrepo-2771: Mementos have incorrect subject returned
   - Bethany familiarizing with the surrounding code
   - No blockers at this time

Actions

- Danny to explore inserting a macro into documentation for Fedora version.
- Send email to community seeing who is interested in reviving OAI
