Scope & Objectives

The goal of this technical working group is to design and implement DSpace 7 Configurable Entities, per the statement from the DSpace Steering Group regarding the DSpace 7 data model and proposal #3 of the DSpace Entities Working Group summary document. (A high level overview of "Configurable Entities" was also presented at OR2019 and during the DSpace 7 Update at OR2018)

This working group is expected to complete and/or scope the effort within the DSpace 7 release timeline, which will require close coordination with the DSpace 7 Working Group (2016-2023).

Deliverables

This working group will

1. Assess the **early prototype of Configurable Entities** and its alignment with guidelines/needs.
2. Define an implementation roadmap for DSpace 7 Configurable Entities (based on the assessment of early prototype)
3. Implement Configurable Entities, per defined roadmap (by creating a Pull Request & documentation, to be reviewed by DSpace 7 Working Group (2016-2023) and DSpace Committers)
4. Draft a post-DSpace 7 roadmap for Configurable Entities (to be reviewed by Steering and Leadership)

Once the above deliverables have been completed, this working group will merge with the DSpace 7 Working Group (2016-2023). At that point, the Configurable Entities feature (and any further enhancements/improvements) will be managed by the combined DSpace 7 Working Group (2016-2023), where it will be stewarded into DSpace 7.
