Notes

(Notes below copied from last meeting. Details will be updated during this meeting.)

- General Updates (Tim)
 - DSpace Leadership team had a meeting yesterday [2018-11-07 DSpace Leadership Group Meeting](#)
 - Looking less and less likely we'll push for a DSpace 7 "preview" release in 2018. A subgroup of the Leadership group will meet next week to discuss DSpace 7 release planning/strategies.
- Angular Team Updates (Art)
 - Merged PRs: none this week
 - In Progress tickets / PRs:
 - Lotte working on the menus (based on mockups)
 - Wiki page for side menu mockups: [Menu Mockups](#)
 - Kristoff creating & editing Communities, Collections & Items
 - Angular 6 PR (ready for early reviews, but won't be merged until Submission UI is merged): <https://github.com/DSpace/dspace-angular/pull/320>
 - Art noted that Angular 7 was just released this week. However, no rush to upgrade yet, as we'll need to wait on our dependencies to update to v7 compatibility
 - However, this notes that we really should work to get to Angular 6 soon (waiting on Submission PR still, see below)
 - Tickets / PRs requiring review:
 - Several small PRs from Bram (reviewed by Art, waiting on updates)
 - <https://github.com/DSpace/dspace-angular/pull/324>
 - <https://github.com/DSpace/dspace-angular/pull/322>
 - <https://github.com/DSpace/dspace-angular/pull/308>
 - Entities PR: <https://github.com/DSpace/dspace-angular/pull/315> (Needs reviewers/testers)
 - <https://github.com/DSpace/dspace-angular/pull/279>
 - This ticket is also waiting on Tests/Specs to be implemented
 - 4Science notes they can get these implemented by end of November.
 - It's possible it could be done earlier (will try for early November). But having more contributors could help here
 - When visiting `/submit`, even if I'm already logged in, I'm prompted to login a second time.
 - Will be fixed with X-Forwarded Header fix: <https://github.com/DSpace/DSpace/pull/2207>
 - Configuration on server side is incorrect (for second describe box). Giuseppe will fix
- REST Team Updates
 - Open PRs: <https://github.com/DSpace/DSpace/pulls?q=is%3Apr+is%3Aopen+label%3A%22REST+API+v7%22+sort%3Aupdated-desc>

 - <https://github.com/DSpace/DSpace/pull/2207>
 - In Progress tickets / PRs:
 - <https://github.com/4Science/DSpace/pull/37> (Still waiting on Andrea to find time to create a PR from this
 - After that PR, we also will have a MyDSpace PR to complete the REST API side of Submission & Workflow
 - Atmire will be creating separate PRs for each Content Mgmt feature (see our spreadsheet for full list)
 - Still in the design phase
 - Atmire looking at dynamically adding HAL links (making it more configurable).

- <https://github.com/DSpace/DSpace/pull/2129> (Needs updates from Mark)
- Tickets to update our DSpace Java dependencies. Tim & Mark W have started working in this area, and this is important for DSpace 7 as some dependencies are very outdated or even EOL
 - <https://github.com/DSpace/DSpace/pull/2244> (Update to Commons Config v2 – important for better Spring integration)
 - Also a Solr upgrade in the works: <https://github.com/DSpace/DSpace/pull/2058>
