Notes

- Art Lowel (Atmire) noted that Saving Approach won't happen before Preview. He will add a ticket to describe the issues they encountered, so that it can be revisited **after** Preview Release.
- Art Lowel (Atmire) brought up question about Giuseppe Digilio (4Science) 's Submission PR #279. Noted that it is hardcoding the "Choices" constants on the Angular side & we should discuss whether there's a way to make this come from REST API. Action: Log a bug ticket
- Giuseppe Digilio (4Science) notes that Submission PR #279 can be used for Item Edit form functionality. Will add more notes to the PR itself to detail how it could be used/tested
