Preparing for the call

If you can join the call, or are willing to comment on the topics submitted via the meeting page, please add your name, institution, and repository URL to the Call Attendees section below.

CoreTrustSeal requirements information

The requirements for CoreTrustSeal are provided on the website. N.B. the 'Extended Guidance' document is aimed at **reviewers** rather than repository managers applying for the seal. So a better place to start is the Introduction to the requirements (two-page PDF) and then the requirements themselves (fourteen-page PDF listing sixteen detailed requirements, most of which involve providing lots of documentation on policies and procedures). Likewise with respect to the webinars which are listed on the same page - be aware that the first webinar is aimed at reviewers primarily, not applicants.
