Agenda & Notes

Review actions from 2019-02-08 Cornell LD4P2 Meeting notes

- **Steven Folsom** keep track of cataloger perspective on work to support LC Names is in QA with context
 - 2019-01-11 - Dave had added LCNAF to D.A.V.E. and Steven is working on the context needed for the search lookup UI.
 - 2019-02-01 - Action yesterday. Working with Dave on whether that spreadsheet has all the right information.. may be resolved today?!
 - 2019-02-08 - Answer to previous maybe is "no". Need input from **David Eichmann** in order to resolve question of whether spreadsheet has all the right information (particularly about need for prefLabel or not, language tags or not) **Steven Folsom** will write up new issue and **E. Lynette Rayle** will review; **Steven Folsom** will then follow up with Dave
 - 2019-02-15 - no update
- **E. Lynette Rayle** priority is completion of https://github.com/LD4P/qa_server/issues/27
 - 2019-01-25: significant progress. refactored code showing context; fails on certain LD paths and doesn't expand out URIs (e.g.: if do broader, will only give URI, not URI + label) - has not yet attempted to correct.
 - 2019-02-15 have 1 PR outstanding, will then have context with expansion if requested in config. Will then call refactor done and make major QA release
- **E. Lynette Rayle** LDPATH gem is doing load for graph every time it tries to access something (SLOW)... may need to fork LDPATH gem to make more efficient since will not need to reload graph every time (for our use case)
 - Still issue with LDPATH gem, working Chris Beer to resolve
- **E. Lynette Rayle** (from discussion of LC Names in QA with context) 1) investigate & document algorithm for selection of languages with label and /or no label. In cases like AgroVoc where languages are handled well then we just want to document the (good) algorithm; but in other cases where language information is wrong we need to be able to turn that off (need more config for this)
 - 2019-02-08 no update
- **Steven Folsom** going thru CUL's D&A Jira (next week or so): <https://culibrary.atlassian.net/secure/RapidBoard.jspa?rapidView=19&projectKey=DISCOVERYACCESS&view=planning.nodetail>
 - 2019-02-01: Went through about 15 issues, some directly related to linked data, others more UI, and some challenges for RDF indexing. See <https://docs.google.com/spreadsheets/d/1gklgTQUNd9nr3xTI5kdFYK51SRG6TeMRH678N1FtNQ0/edit?usp=sharing>. How do we move forward with this understanding? Way forward:
- **Huda Khan** & **Steven Folsom** to go through spreadsheet <https://docs.google.com/spreadsheets/d/1gklgTQUNd9nr3xTI5kdFYK51SRG6TeMRH678N1FtNQ0/edit?usp=sharing> assessing difficulty and "linked data wow" factor (BfB)
 - 2019-02-08 no update, will schedule "bang for buck" (BfB) meeting next week
 - 2019-02-15 had meeting to go through spreadsheet, expect another meeting to fill out BfB/wow column. On **Steven Folsom's** plate decide whether another meeting with just **Huda Khan** or a larger group
- **Huda Khan** is working on whether usability work on catalogs has been done internally as well as externally to CUL. Code4Lib journal and another has some details
 - 2019-01-18: Have been looking at usability work and literature. Found some older material on Blacklight tests (when facets new), not so much after that. Some log analysis on SearchWorks. Also looking at linked data browser tools. Interesting dissertation from a few years ago on LD exploratory search. See [discovery folder](#), literature exploration [NOTES DOCUMENT](#), [initial discussions](#) with Tim regarding knowledge panels etc. , and also Stanford [NOTES FROM LAST SUMMER](#)
 - 2019-02-15: Astrid is doing more user sessions in the next week or so. Huda will then review. Also discovery discussion group had a [meeting](#). For reference, [knowledge panel slides](#) with screenshots/examples plus questions
- **E. Lynette Rayle** will work with Dave on Video Game Genre Forms request https://github.com/LD4P/qa_server/issues/42 – pending work from Dave
 - 2019-01-18 Still in Dave's camp
 - 2019-02-08 no progress. In **David Eichmann** camp until data is added to DAVÉ suggest that we should add these to the Tuesday meeting. ACTION **E. Lynette Rayle** to add to Tuesday meeting agenda
- **E. Lynette Rayle** to work with Dave on QA/DAVE presentation at LD4 Conference
 - 2019-01-18 Going to do this with Dave, working on it this pm
 - 2019-02-08 Just a few hours left...
 - 2019-02-15 DONE, let's hope the reviewers like it...
- **Huda Khan** to discuss with Astrid possibility of UX presentation
 - 2019-01-18 Have discussed with Astrid. Abstract "yes" so far
 - 2019-02-08 Going to submit today!
 - 2019-02-15 DONE, let's hope the reviewers like it...
- **Jason Kovari** will discuss in LTS whether there are URIs from Share-VDE data that are useful and might be added to catalog
 - 2019-02-08 ON HOLD until we have some Cornell data back from Casalini (expected early March). Then have discussion in LTS – people will need to see / explore data before forming opinions on utility
- **Simeon Warner** re: Enhanced Discovery work, will talk with Jessie about Stanford plans and then talk to budget & finance
 - 2019-02-01 Jessie in planning work likely to start after LDCX, likely to include knowledge cards
 - 2019-02-08 have scheduled first discovery affinity group call, focus will be knowledge cards
- Issues: [Infrastructure Authority Requests https://waffle.io/LD4P/ld4p2-cornell](https://waffle.io/LD4P/ld4p2-cornell)
