

PCC ISNI documentation and training

This is the landing page for training and documentation for the PCC ISNI Project. The materials were created by the [ISNI Training Task Group](#) of the PCC Standing Committee on Training (SCT).

We recommend that participants new to ISNI become familiar with working in the web interface before attempting to work with the WinIBW client. Most of the necessary functions can be performed in the web interface in a more user-friendly environment.

It may be helpful gain experience with modifying existing records in the system before attempting to create new records from scratch.

Training

- [Principles of the ISNI system](#)
- [Logging on to the database](#)
- [Searching - web](#)
- [Modifying records – web](#)
- [Creating a new record – web](#)
- [Merging records – web](#)
- [ISNI tutorial videos – web](#)

Documentation

- [ISNI field documentation](#)
- [ISNI field mappings](#)
