Zenodo Community Collection

Background

The VIVO Project has an archive at Zenodo for preserving project artifacts – software, ontology, documentation and other materials as determine by VIVO Project Governance. Access to the archives is provided from the URLS below. For more information contact Mike Conlon

Community Collection Access

Collection URL:https://zenodo.org/communities/vivo/

Above address links directly to your community collection.

Upload URL:https://zenodo.org/deposit/new?c=vivo

Above address will automatically ensure people who use it will have their record added to your community collection.

Curation URL:https://zenodo.org/communities/vivo/curate/

Above address links to your private curation URL. You will find all uploads pending your curation.

Harvesting URL:Zenodohttps://zenodo.org/oai2d?verb=ListRecords&set=user-vivo&metadataPrefix=oai_dc

Above address links to a OAI-PMH feed, which can be used by other digital repositories to harvest this community.
