

Fedora Developer Meetings

This page is no longer in active use. For current Fedora developer meetings [go here](#).

Committer/Special Topic Meetings

The Fedora Repository committers hold an open meeting every **Thursday at 11:00am (US Eastern Time)**. Usually these are focused on getting updates on what people have been working on lately, as well as reviewing any newly-submitted issues. We invite you to come and participate, or just listen in. The agenda and notes ([IRC Logs](#)) of each of these meetings are available below.

Often, instead of a committer meeting, we hold a "Special Topic" meeting. The format of these meetings will vary, but generally involves a discussion of a particular area of interest to the Fedora development community. These discussions are also open to anyone in the community to join in and participate. If you have an idea for a future Special Topic meeting, please add it below!

Call-in Details

This meeting is a hybrid teleconference and IRC chat. Anyone is welcome to join...here's the info:

- ReadyTalk:
 - U.S.A/Canada toll free: 866-740-1260, participant code: 2257295
 - International toll free:
 - <http://www.readytalk.com/intl>
 - Use the above link and input 2257295 and the country you are calling from to get your country's toll-free dial-in number
 - Once on the call, enter participant code 2257295

[Historic Meeting Notes..](#)

Future Special Topic Candidates

1. Object-level Versioning
2. SDef/SDep improvements
3. Datastream/Object versioning
4. High Level Storage
5. Module Architecture Development
6. Semweb Improvements
7. Performance testing
8. Islandora Intro/Update
9. JCR Tools Intro/Update - Guest speaker from Northwestern
10. Workflow integration: suggested changes to core
 - a. If any are identified by people doing workflow w/Fedora
11. CMA Design Issue - Coupling of structural descriptions of objects and "behaviors": is the cModel-to-SDef "providesService" arc a good thing? See: [FCREPO-527](#)
