

2019-06-13 Outreach WG Agenda and Notes

Date

11 Jun 2019

Attendees

- [John Kunze](#)
- [Tracy Seneca](#)
- [Kurt Ewoldsen](#)
- [Sébastien Peyrard](#)
- [Maria Gould](#)

Discussion items

Time	Item	Who	Notes
	<p>current survey status</p> <p>use inputs to inform next survey?</p>		<p>Ready to go by the end of this week; requesting responses in two weeks.</p> <p>First group will be EOI respondents, then the NAAN registrants.</p> <p>This group "owns" the results and prepares the next survey.</p>
	<p>FAQ v0.91 still in-progress</p> <p>Question: final review phase at ARKs forum / mailing list ?</p>		<p>After mailing list review, then declare it finished for a year.</p> <p>Wait for translation to French? maybe not – this could be asynchronous.</p> <p>Keep an eye on translations to Spanish and French.</p>
	<p>animation ideas; who can help with storyboarding?</p>		<p>2-minute maximum, rather than 5-minute; more like TV commercial</p> <p>KE: recommend role of persona, Kurt, at org Y, who has problem Z, and here's how ARKs makes things better; what are those roles? what are make it better?</p> <p>KE: want them to be generic so they cover broad base</p> <p>Roles:</p> <p>curator in museum,</p> <p>librarians from catalog side, digital library, virtual exhibitions</p> <p>archivist working with special collections</p> <p>"things don't break until system-to-system migration"</p> <p>TS: people don't realize they need PIDs until they realize that their ids were going to break</p> <p>TS: we're going to have to change every reference to the old stuff in, and this will happen again and again</p> <p>"I have legacy ids"</p> <p>Collection management (archivesspace)</p> <p>Content management (contentdm)</p> <p>DAMS (more backend digital preservation)</p> <p>JK: what about journal systems like OJS</p> <p>MG: maybe "librarian" is too general, better might "digital repository/scholarship librarian"</p> <p>JK: museums sometimes want to leverage legacy identifiers</p>
	<p>LYRASIS webinar offer; what topics to cover in a 1-hour session?</p>		<p>TS: would be really helpful to know, which LYRASIS-supported tools work with ARKs?</p> <p>KE: maybe the topic could be more generic, such as the benefits of PIDs</p> <p>TS: Archivesspace is really about finding aids; Islandora could use ARK support</p>
