- [Tom Wrobel](#)
- [Jessica Hilt](#)
- [Collin Brittle](#)
- [tamsin johnson](#)
- [Michael Ritter](#)
- [David Minor](#)
- [Longshou Situ](#)
- [Tim Marconi](#)
- [Rosalyne Metz](#)

Regrets

- [Erin Glass](#)
- [Bill Branan](#)
- [Andrew Diamond](#)
- [Andrew Woods](#)
- [Brendan Quinn](#)

Goals

Discussion items

Time	Item	Who	Notes
2 min	Housekeeping and updates	Sibyl Schaefer	Next in-person meeting: • Reminders: ◦ Sept. 24 - 26 ◦ Schedule is available ◦ Same meeting room as before (Biomedical Library Events Room) ◦ Happy hour appetizers provided 9/25
2 min	Community involvement	Jessica Hilt	• Plan for drafted specifications: ◦ Announcement ◦ Comments due Sept. 6 ◦ Wed. Aug 14 - Email to samvera community, samvera partners, and samvera tech. Post in Slack. Sibyl will send to DPcollab. ◦ Mon. Aug 26 - Follow up email and post to Slack for feedback. ◦ Thurs., Sept 6 - Final email and post to Slack for feedback. Deadline extended to COB today.

6 min	User story question	Sibyl Schaefer	1) Question from the specification writers: Can you preserve a version in-between versions? Is this a use case that should be supported? From the repository perspective, hope was to be able to avoid the need to specify what the version ID needs to be. I've got an old repo and I'd like to preserve it's history back to the past. Create object x version 1 and version 3 and come back to create version 2 Answer: no
40 min	Review specs to see if they fulfill user stories	tamsin johnson Michael Ritter	• Working Specifications Notes: • 24 user stories, 3 meetings before in-person = 8 stories per meeting • 6.25 minutes per user story • Finalized list, incorporating community feedback • Bill's notes on the final 6 user stories (listed in red)
10 min	User interfaces needed	Sibyl Schaefer	First attempt to map user stories to interfaces
