Regrets:

Agenda & Notes

Review actions from 2020-03-27 Cornell LD4P2 Meeting notes

- E. Lynette Rayle QA performance
  - 2020-03-06: Dave in process of converting everything over. Unsure of status for any authority, including MeSH. When LC done, we'll know whether this has impact since there are considerable usage data for LC. Dave and Lynette each working on other projects at the moment.
  - 2020-03-20: Dave is tied up with dept. COVID-19 planning. Log analysis shows two classes of error: 1) 502 is Dave's cache not responding, 2) 500 error which depends on query, Java null pointer error from Dave's system, and fewer of a third 3) timeout error
  - 2020-03-37 On hold because Dave is otherwise tied up
  - 2020-04-03 On hold because Dave is otherwise tied up
- Simeon Warner to ask Adam Smith to investigate cost and any issues with setting up a D&A Beta system to allow broader testing of some discovery ideas from this work.
  - 2020-04-03: Adam provided numbers ranging from $1.5k/year to $5k/year for 1 blacklight VM plus 3 Solr VMs, depending on speed/size. We use a small Solr index for experiments so far, we aren't yet sure what we will need for Wham!
- E. Lynette Rayle to ask Tiziana about SHARE-VDE APIs for real-time up-to-date search and for possible engagement in linked data best practices for authoritative data working group
  - 2020-03-20: Will instead email a larger set of people (individually) about proposed best practices working group, will delay a bit until "new normal" has set in
  - 2020-03-27 Thinking about informal reach out today, then maybe something more formal in a week
  - 2020-04-03 For sure Monday. Releasing Exhibits 2.0 today.
- Simeon Warner to ask PIs and Michelle about planning for partner meeting
  - 2020-04-03 Ongoing discussion about a set of 1-2h calls for partner meeting

Status updates and planning

- Enhanced Discovery - **WHAM!** (see also https://wiki.duraspace.org/x/sJI7Bg and https://github.com/LD4P/discovery/projects/1)
  - https://docs.google.com/document/d/1u88qVOhp92C6Y1N9dNpNtjV_XOnusFB0nb2aJ-Q10FM/edit
  - 2020-03-20 Consensus from discussion that top priority should be work on the autosuggest, with possibility of additional work on discogs or syllabus. Goal for the next week is to develop plan for autosuggest work and to understand any possible issues
  - 2020-03-25 Discussion with developers, Notes, Slides
  - 2020-04-03 Organizing doc
- Cataloging Sinatra and other 45's (Discogs data, https://github.com/ld4p/qa_server/issues?q=is%3Aissue+is%3Aopen+label%3ADiscogs)
  - Lookups for place not usable and hence places are not being recorded, relies on work from Dave to fix: https://github.com/LD4P/qa_server/issues/248 & https://github.com/LD4P/qa_server/issues/240
  - Have a currently insurmountable issue with nested profiles. When create Work profile with nested Instance profile there isn't a URI for the Instance (it just gets hung from a bnode). Without a URI the title of the Instance doesn't get indexed. The Sinopia team are unable to fix this in the near term.
  - 2020-03-20 not expecting progress in the near future
- Authority Lookups for Sinopia (Lookup infrastructure: https://github.com/LD4P/qa_server/projects/2, Authority requests: https://github.com/LD4P/qa_server/projects/1)
  - 2020-03-27 A couple of updates being put into production now: ISNI now available, Wikidata wasn't working properly because of a lack of response header which has now been added so that it plays nicely with Sinopia, also fix with CERL. Doing some infrastructure work to use Reddis for caching and avoid a memory leak issue, working with Greg to understand issues
  - 2020-04-03 Recently done: cleaned up and updated UBER Issue for Authorities (#253), UBER Issue for Indexing (#239), OCLC FAST cache vs. direct (Sinopia #2125), Use Case: Authority Lookup UI option in place of auto-complete (Sinopia #2123)
- Travel and meetings (see LD4P2 Cornell Meeting Attendances)
  - LD4P2 cohort meeting, LC, previously scheduled 20
    - Current discussions that Michelle has organized are reviewing status of cohort and whether some remote meeting is needed – lots of COVID-19 discussion and changes to plans
  - LD4P2 remote partner meetings
    - Sinopia topics
      - Possible need for lookups and not just auto-complete to meet cataloger needs: https://github.com/LD4P/sinopia_editor/issues/2123
  - Knowledge Graph Conference (Columbia University), May 6-7, workshops 5/4-5/5
    - Now remote and Huda confirmed, going to be a drawn out set of virtual sessions, don't yet know scheduling
  - LD4 Conference 2020 at College Station, TX (TAMU) - May 13/14, 2020
    - Hold on planning for a few weeks
  - DCMI (9/14-9/17, Ottawa): CFP due 4/13
    - Not cancelled
  - rdfs:seeAlso Conferences Related to Linked Data in Libraries
- Next meetings
