

Spotlight at the National Library of Medicine

Tufts University is in the process of migrating old single-site exhibits into Spotlight and generating new exhibits based on incoming materials.

Who's Who Data

- Who are the lead contact(s) this community can reach out to for questions?
- How long have you been using Spotlight?
- How many people are on your Spotlight team?
- List or number of published Spotlight exhibits
- Have you used other digital collections platforms at your institution such as Omeka? If so, do you maintain more than one digital collection platform?
- Have you used Spotlight to migrate older digital collections? If so, what were the lessons learned?
- What Spotlight features do you use?
- What features would you like the community to develop or plan to develop yourself? (Gathered here so this community can help developers across institutions with coordination)
- What are your biggest barriers to using or expanding Spotlight use at your institution?
