Updates

- LYRASIS - nothing to note
- TDL - all quiet on the western front
- UTampa - Archivelt Sync working great, more testing need

Sprint

- Who's going to participate
 - Bill - about 50%
 - Danny - at least 50%, hoping for 70%
 - Sidenote: Worth watching movie 1917
 - Nick - shooting for 75%
 - Andy - not available
- Meeting Schedule
 - Tue/Thurs - 12pm ET (11am CT, 9am PT)
- Ticket
 - Anything missing
 - Priorities
 - Java 11 (1242) - consider also allowing for Amazon Coretto JVM. Needed for moving to Amazon Linux 2. May need to test with Coretto in Travis as well. Lots of parts to this.
 - Accessibility (1264/1265) - This may be challenging in DurAdmin. Needs to be something we're showing progress on.
 - Retrieval Tool (1069/1267/1268) - Can make using the tool harder
 - Assignments
 - Danny open to any of them: Accessibility (starting with DurAdmin)
 - Nick: 1246 (just for root users), Accessibility (SyncTool), RTMP streaming?
 - Bill: Java 11 (starting with DurAdmin/DuraStore)
