

Change displayed item metadata

Files:

- `[dspace]/config/dspace.cfg`
- `[dspace-source]/config/language-packs/Messages.properties`

Instructions:

1. To change the metadata display, change the ordering of Dublin Core elements after `webui.itemdisplay.default` (in `dspace.cfg`), or add new elements: `webui.itemdisplay.default = dc.title, dc.title.alternative, dc.contributor.*, dc.subject, dc.date.issued(date), dc.publisher`
2. To change the display name of a metadata field, search for its Dublin Core key name (which will begin with `metadata.dc.`) in `Messages.properties`:
`metadata.dc.title.alternative = Title (French)`
3. Perform the steps in [Rebuild DSpace](#).

The screenshot shows the DSpace web interface. On the left is a navigation sidebar with sections: 'Search DSpace' (with a search box and 'Go' button), 'Browse' (with links for Communities & Collections, Titles, Authors, Subjects, and By Date), and 'Sign on to:' (with links for Receive email updates, My DSpace, Edit Profile, Help, and About DSpace). The main content area displays item information for 'IDEALS Installation Plan'. A red rectangular box highlights the metadata fields: Title, Authors, Keywords, Issue Date, Abstract, Description, and URI. To the right of the keywords, the text '(Displayed Item Metadata)' is written in red. Above the metadata box, a message states: 'Please use this identifier to cite or link to this item: http://hdl.handle.net/987654321/3'. Below the metadata box, it says 'Appears in Collections: Temporary Collection'. At the bottom, a table titled 'Files in This Item:' lists a file named 'IDEALS_Install_Plan.doc' with a size of 393.5 kB and format of Microsoft Word, with a 'View/Open' link.
