## Overview

This document includes information on how authoritative data is used in MARC.

## MARC Authority fields that typically contain authority data

| Field | Field Use | Authority data use in that field                                               |
|-------|-----------|--------------------------------------------------------------------------------|
| 3XX   |           | use to create knowledge carts for persons                                      |
| 4XX   |           | multi-valued; need to know if authority data is new or replacing existing data |
| 670   |           |                                                                                |
| 672   |           |                                                                                |
