Agenda + Notes

1. Finalizing 3.4.1
    a. Announcement to fcrepo-user list (Dan)
    b. Upload to sourceforge/update website/wiki (Chris)
    c. Merge-down to trunk and public accessibility of JIRA issue: When?
    d. **Concensus:** Will wait until we can do a patch for 2.2.4 users (Steve will look at this)
2. FCREPO-822 - POLICY datastream race condition
    a. Scope & relation to behavior seen with data conservancy? **Dan:** Seems like it could still be related. Linked existing issue to this one for now.
    b. Necessitate another bugfix release before 3.5?
    c. **Discussion about doing a 3.4.2 release:**
        - Concern about 3.4.2 work slowing down efforts to work on 3.5
        - Won't plan for doing a formal 3.4.2 release now
        - Will create a maintenance-3.4 branch in which bugfixes go (in addition to trunk), so we could do a 3.4.2 release at a later date if needed.
        - Will do nightly builds of this branch so people who really need to, can get bugfixes, even without an official release
3. Review other newly-submitted issues
