2023-02-14 Technical WG Agenda and Notes

Date

14 Feb 2023

Attendees

- Curtis Mirci, Roxana Maurer, Dave Vieglais, Donny Winston, Karen Hanson

Goals

homepage review, spec transition, persistence statements

Discussion items

Item	Who	Notes
Announcements		Community Leaders (chairs and co-chairs email list set up) arka-conduct@googlegroups.com https://arks.org/community doesn't load, but https://arks.org/community/ does … John wants a "send an email" form to put on the code of conduct page. So no need to give out an email address of individual chair or co-chair. • there are services to embed a contact form on a static website, e.g. netlify forms (https://www.netlify.com/products/forms/), backed by "serverless functions" (ephemeral container init and running) • good to have something that works with github pages (where we want to migrate to)
Any news items we should blog about? Any calls for papers, submission deadlines, upcoming meetings we should note? Please add to Calendar of events.		* nice to have blog post persistence statements once there's some more concrete content to share
WG homepage review		https://docs.google.com/document/d/1n5ETS45fHqJefu74vXKLFZhrXm_VmIB7jT2Yk4zR2_E/edit#heading=h.v83orrqv3vnr Migration from confluence, perhaps consider something like: https://github.com/sjones4/confluence-to-github ensure deliverable(s) associated with each objective: • json schema for NAAN entry record for validation.
Ongoing collection of ARK spec update use cases Spec transition implementation – is someone willing to lead?		https://docs.google.com/document/d/1Yh60RajuAqlBox94iW47_43oeOKEuyzenXExggtpGdU updates: • length of NAAN is variable. Not restricted to 5-digit numerical values • no slash after colon (ark:12345/key) is the canonical form, but old form (ark:/12345/key) must still resolve. Need concise description of changes.
Persistence Statements / "Durability"? strawman MVP (minimum viable product)		strawman mvp: https://docs.google.com/document/d/1Ej8wup8mK3yS39AdwHDJSclPCh3K9zP-RlkPKaqmxQ4/edit?usp=sharing objective: be less overwhelming than https://datascience.codata.org/articles/10.5334/dsj-2017-039/ NR - non-reassignment OP - opaque CC - check character resolvable

Action items

- John Kunze need concise description of ARK spec changes to aid transition plan; blog about it?
- Dave Vieglais produce documentation and new NAAN schema for validation and form processing (Donny can help)
