

2019 DevMtg Notes

Meeting on Hiatus starting August 2019

This meeting is on temporary hiatus and will no longer be held on a regular (weekly) basis. This meeting will resume as soon as one (or more) of the following occurs:

- The [DSpace 7 Working Group \(2016-2023\)](#) finishes its work & ramps down
- Or, the DSpace 6.4 release effort ramps up.
- Or, an interim chair for this meeting is located (as Tim is unavailable to chair this meeting until DSpace 7 finishes up)

In the meantime, ad hoc discussions or meetings are encouraged to occur via the #dev channel in [Slack](#). Developers wanting status updates (e.g. on DSpace 7), or looking for feedback/advice on ongoing work are encouraged to ask for support on that channel, and we would be glad to help out.

Anyone is also welcome & encourages to attend (or "lurk") on [DSpace 7 Working Group \(2016-2023\)](#) or [DSpace 7 Entities Working Group \(2018-19\)](#) meetings (both occur weekly). You need not have a microphone or camera to attend, and can take part or ask questions via text chat in Zoom.
