## Notes

- Dragan will present plans for 1.15 at tomorrow's Leadership Group meeting.
- Presentation of Dynamic API on 14 September? Dragan is unavailable, but Georgy and Brian are.
  - Dragan will open a small group on Slack to discuss details. Possibly also a short meeting tomorrow morning.
- Might organize additional presentations during Tuesday development call slot. Would be best to start in September; there are conferences then, but it is better than August.
- Dragan responded to Slack message about duplicated vCard URL links; hasn't heard back yet.
- Meetings are returning to weekly schedule. Hoping to get feedback in September about how things are going in specific VIVO installations.
- Michel: trying to use Docker tools to start VIVO as described in the README in the VIVO repository. Am I the only one having trouble, or are there known problems?
  - Dragan: Some issues were reported about specific parameters, but I don't think there are known issues with just trying to run VIVO as is.
  - Michel: I made some changes to get it to work, but it doesn't work as described in the README file. Needed to make some changes in example settings and Solr URL. Can make a pull request.
