CloudSync 1.0.0 Release Notes

Released October 28th, 2011

This is the first non-beta release of CloudSync and includes support for several features that were missing in earlier versions, including the ability to copy objects with "M" (managed) datastreams and the ability to add new users via the UI. Several other useful improvements and bug fixes are included in this release. See details below.

Features & Improvements

CloudSync 1.0.0-beta-2 Release Notes

Released July 26th, 2011

This was a minor release designed to make initial setup less problematic by having CloudSync trust SSL certs of Fedora and DuraCloud instances, by default.

Features & Improvements

CloudSync 1.0.0-beta-1 Release Notes

Released June 4th, 2011

This was the first release of CloudSync, with basic support for Copy and List tasks. However, it did not support adding new users or copying objects with managed content, and the UI lacked tabular display of tasks (just showing raw JSON) and user input validation.
