

# Enabling Optional Features

This topic is not yet complete. Please help improve this page by adding/editing content. To learn more about how to contribute to the KnowledgeBase click [here](#).

This section will focus on:

- Understanding what persistent identifiers are, how they work and the benefits to using them in a DSpace repository environment
- Understanding what a handle is – the persistent identifier currently used in DSpace
- Having an overview of how to apply for a handle
- Seeing a handle in use
- Setting up the handle server
