### Goals for 8.0

*This were decided by Steering in their meeting on June 28, 2023.*

1. Move forward major features which missed 7.x.
  - a. **COAR Notify** support (4Science & Harvard): <https://github.com/DSpace/DSpace/issues/8120>
    - i. Development proposal page: [Implementation of the COAR Notify protocol in DSpace 8](#)
  - b. **OpenAIRE integration with notification broker/claim service** (4Science)
  - c. Porting "**REST-Based Quality Control Reports**" from old REST API to new one. (U of Laval, Canada)
  - d. Duplicate Detection in Submission ported from DSpace-CRIS (The Library Code)
2. Include new features which empower users in the admin UI. Make things easier for Admins.
3. Accepting community contributions of any 6.x features which missed 7.x
4. Improve documentation, training to allow for greater community contributions. (Ease setup/install/customization, etc.)
  - a. Per [DSpace 7 WG meeting on June 29, 2023](#), this may include dependency upgrades/maintenance (Angular, Spring, Solr, Tomcat, etc). May also include necessary code updates/refactors to ease in ongoing maintenance.
5. **Release Goal: April 22 2024**
6. In parallel to 8.0, proof of concepts / planning regarding modularization:
  - a. [Angular : library-based architecture proposal](#) (4Science)
  - b. [DSpace Preservation-enabled Storage via OCFL](#) (Lyrasis, post-8.0)

### Goals for 7.6.2

*Deadline is TBD for 7.6.2*

- *Bug/security fixes only.* Release will occur when sufficient fixes have been made to warrant a release.
  - New "themeable components" (for dspace-angular) are allowed in bug fix releases, provided that they don't significantly modify component behavior or similar.
- **Bug fixes should have one Pull Request** (*exceptions may be made for very small fixes*)
  1. A PR against either the "dspace-7\_x" maintenance branch OR the "main" branch.
  2. We will automatically generate a PR against the other branch using the "port to [branch]" labels & the "[Port merged Pull Request](#)" GitHub Action
  3. (In the case of complex bug fixes, it is possible this automatic port action will fail. In that situation a manual port PR may need to be created.)

### Try "Pull Request Trading" for a quicker review

Do you have a PR stuck in "under review" that you really want to see move forward? Or maybe it's someone else's PR but you want to get it more attention?

See [Trading reviews on Pull Requests](#) for how to get immediate attention to that PR!
