## Notes

**Attendees:** Chris, Adam, Dan, Ed, Eddie, Ben, Jonathan

### Notes:

See [notes on IRC](#).

Jonathan: FCREPO-1106, one line fix likely will fix it. Prevents it from working.  
Chris: Concerned about putting the fix in at this stage of the release.  
Ben: There may be a broader issue and we may need to reopen. Has seen the message under other circumstances.  
Eddie: We will try to 3.6.1 out very soon after 3.6 in order to wrap up a bunch of bug fixes.  
Eddie: Geronomo exclusion is failing, crept back in.  
<cwilper> FAILED to resolve p: null s: <http://localhost:8080/fedora/schema/listDatastreams.xsd>  
Chris: Happens when you ingest demo objects.  
Chris: Wonders if its showing a larger problem with validation.

Eddies: Correlates with the three commits.  
Chris: "S:" is system for resolve entity method.  
Ben: It only knows two namespace contexts  
Chris: It could be a reference from a higher level schema.  
Chris: Its to avoid schema validation or inline XML datastreams.  
Chris: Wonders if schema validation is skipping when inline XML is found. Concerned this is does not have test coverage.  
Ben: Its only happening on findObjects.  
Chris: We have to determine how serious this is in order to make a decision.  
Ben: Eddie: When working with JAXB, did not include findObjects  
<eddies> line 1630 in TestRESTAPI  
Chris: Perhaps validating our own responses should really just be a test.  
Eddie: Calls for input to Release Notes.  
Chris: Can we improve our inclusion of license information.  
Eddie: It would be nice to automate this.  
Chris: Observes that the license information is not always good even in Maven central libraries.  
Chris: Is faster to do the release manually. Deploy function works well.  
Chris: Eddie needs permissions to deploy set up.

Ben: Jonathan's pull request should go in.  
Ben: There may be another issue but its not that issue.  
Ben: Will merge in.  
Ben: Egbert RELS-EXT for 3.6.1 is right about language attribute  
Ben: There is a bunch of code if done to the full scope  
Ben: Will work on for 3.6.1.  
Eddie: Cautiously optimistic that we can make release next week.  
Chris: Other than Jonathan's fix but nothing else without talking to Eddie.  
Chris: Next week is a problem due to the US holiday.  
Eddie is shooting for the 5th.  
<Dan\_Davis> Chris: Meeting in Edinburgh is all confirmed, lunch service, bring your own Scotch.
