Time

- 10:00am Eastern/14:00 UTC

Dial-in

- (209) 647-1600, participant code 373133, host code: 560833 (can be done via Skype - for directions: <https://wiki.duraspace.org/display/cmtgyp/DCAT+Conference+Call+Dial-in>).
- Please note that we have been having lots of connectivity issues with the "freeconferencecallhd.2096471600" Skype dial-in lately. Generally you can get on, but Skype seems to boot you off at regular intervals. To avoid the frustration we recommend dialing in via a Skype phone call -- simply use the Skype dial pad and dial the USA # 209-647-1600 and then the conference code # as prompted. You will need to have a Skype account with money in it in order to place this kind of call -- and it will likely be about 3 cents a minute, depending on where you are calling from. We are looking for other solutions to the problem -- and also for your suggestions if you know of other solutions.

Actions from previous meeting

Action Item	Assignee	Status
-------------	----------	--------

Update the current status of issues: 1) on the 2013 DCAT Discussion Schedule summary - identify "Recommended Action" 2) solicit DCAT feedback on your issue in the DCAT Discussion Forum if you need any further/more current DCAT feedback on your recommendation (push to big/complex project list, drop as low priority, etc.) before posting your DCAT recommendation to JIRA 3) add DCAT recommendation to JIRA issue, including links to DCAT discussion if you have not already done so	ALL	Aug 14
Provide input on the Top DCAT feature/improvement priorities: https://wiki.duraspace.org/display/dsforum/DCAT+Top+Priorities	ALL	June 14-15
Updating Dublin Core project 1) determine project lead, if necessary 2) document specifically what needs to change (suggested that team pick the easiest solution that would create the least controversy /conflict for the community for 1st phase and maybe breakdown project into subsequent phases) 3) forward proposed changes to Tim and he will put it on a developer mtg agenda 4) project team to attend developer's mtg to discuss	Sarah P., Amy, Maura Valentio, Maureen (Amy to set up 1st mtg)	Aug 14
Clean up "Action Items from previous mtg" - link to master DCAT Discussion Schedule for full list of DCAT issues/notes/status	Val	DONE
Select new JIRA issue	ALL

Minutes

1) Type based submission forms: [JIRA DS-1127](#)

- Maureen: having the type based submission override an item template for values an admin chose to hide using the type based submissions should generally be ok when well documented - Bram to post to JIRA/let Robin know
- Elin: confirmed with Robin that this won't bring the form administration into the admin UI. Andrea Swheer might be willing to work on this - Elin to create a new JIRA issue and link to DS-1127

2) News - no questions/comments

3) Action Items

- Update current status on [2013 DCAT Discussion Schedule](#) - a few done, everyone please complete
- Top DCAT feature/improvement priorities: <https://wiki.duraspace.org/display/dsforum/DCAT+Top+Priorities>
 - Val: should we continue to have a space for top priorities/bluesky items?
 - general agreement that there should be a wiki space for this -- JIRA issues require clear, reasonably sized objectives -- some projects /ideas might be too large and developers won't know what to do w/them in JIRA -- wiki space will allow for brainstorming and will be more accessible to all community members
 - Val: proposed make use of the [Development Proposal](#) page, perhaps DCAT can help create some categories for the projects on this page which will make it easier to digest for anyone looking at the page and would also help link similar projects together
 - some wish list ideas that Bram heard repeatedly OR12: better support for digital preservation, support for research data, author profile and better reporting
 - others suggested there should be a push email or a way to easily filter all bluesky projects
 - general agreement that we should put together a proposal about bluesky/larger projects not necessarily suitable for the creation of JIRA issue for the developers to review - Val volunteered to write and post for the Thurs/Fri discussion this week
 - Elin: suggested that there should be a "JIRA for dummies" guide - show how the DSpace community uses JIRA, the workflow, etc.
 - Bram: created a video screencast a few years ago - perhaps update and include this in JIRA guide: <http://www.youtube.com/watch?v=NPaz8L82DV4>
- Dublin Core update project
 - Sarah P: 1st draft of recommendations complete

- Sarah/Amy: have several open questions -- like locking down the registry vs. leaving open - Sarah will post recommendations and relevant docs to DCAT Discussion Forum for the Thurs/Fri discussion this week

4) & 5) OR12 Developer Mtg summary and DCAT mtgs going forward

- Val: good discussions in developer mtg about collaboration - observation was made that the most productive collaborative work between DCAT and developers was generally as a result of Robin Taylor/the release coordinator attending the DCAT mtg
- general agreement that we should find a time to overlap DCAT and developer mtg - suggested to overlap 15 min on weekly developer mtg once per month
- original thought was to move the day/time of DCAT mtg to Wed just before the developer mtg and then overlap 15 min - but this would generally mean Europe/UK members would not be able attend DCAT mtgs going forward
- Maureen: let's keep current day/time of DCAT mtg, decide together what topic we will talk w/developers about and also select specific DCAT members to attend developer mtg on the following day to represent the issue -- but all DCAT member encouraged to attend developer mtg
- likely have to limit to one topic since we only have 15 min, DCAT to let Tim know what the topic is and if there are relevant references immediately following DCAT mtg
- will start at next mtg -- Sept 4 -- DCAT mtg time unchanged -- still will be 10:00am Eastern/14:00 UTC

6) JIRA workflow improvements - did not discuss, will put it on the Sept 4 agenda

7) Thurs/Fri discussion

- 1. Bluesky/Development Proposal page proposal - Val
- 2. DC update - Sarah
