

# DevMtg 2012-08-22

## Developers Meeting on Weds, August 22, 2012

### Agenda

#### Regular Items

- ~~JIRA Reviews~~ — starting with issue ~~DS-1082~~
  - ~~Search for all Unresolved Issues (since DS-1082)~~
- Forgoing the normal JIRA review to concentrate on 3.0 Release (for now)

#### Discussion Topics

1. [3.0 Release](#) Discussions
  - Anything still waiting to make it into a Pull Request? (Submission Deadline is Friday.)
  - Anything else we can officially vote on in terms of features?
  - Outstanding question: Do we want to pull LNI out of the "main codebase" and release as a separate 'dspace-lni' module?
  - How do we wish to organize ourselves in the coming weeks before the "Feature Freeze"? Are their specific features we need to put more effort into reviewing? Are there ways we can split up the work?
2. Other topics?

#### Additional Ongoing Topics

1. How can we "catch up" with JIRA Backlog?
  - Do we need to "split up" the tickets & do quick reviews on our own? Or perhaps just split up tickets & do a very quick ranking & schedule ones with patches for 3.0?
  - Perhaps we schedule a "JIRA Backlog Bash" event (via IRC or similar) where we work together to decrease the backlog over a few days or a week (think of this like a "Test-a-thon" but instead we'd be working to just clear out the backlog as best we can).
2. Brainstorming Features/Changes for future. Can we work towards development teams around any of these projects?
  - Larger DSpace projects which seem to have a lot of recent support:
    - Moving towards a Common "Business Logic" / Business Services API. (I.e. avoiding duplication of business logic in all UIs)
    - [Metadata For All](#) (i.e. metadata on all objects), SubTopic: Getting us up-to-date how we use Dublin Core / DCMI. (Support from DCAT)
    - AuthN & AuthZ issues, including: [DS-994](#), [DS-1006](#), [DS-1007](#), [DS-1088](#), and developer meeting on [May 2, 2012](#)
  - Other DSpace projects receiving mention recently
    - [Migrate Search and Browse to DSpace Discovery](#)
    - "Change which UIs come out-of-the-box" (and which are optionally installed later)
    - [Move configurations to DB or similar](#) (so they can be managed/edited from Admin UI)
    - [Context Guided Ingest](#) (or Item Type based submissions)
    - Other [Development Proposals](#)

### Individual Status Updates

*If you have status items to report, please enter them below at least 1 hour before the meeting starts.*

### Meeting Notes

#### Meeting Transcript

- Full IRC Transcript is available at - <http://irclogs.duraspace.org/index.php?date=2012-08-22>

#### Action Items

*Action items coming out of this meeting go here, if any.*
