# DevMtg 2012-09-19

## Developers Meeting on Weds, September 19, 2012

## Agenda

#### Regular Items

- JIRA Reviews starting with issue DS-1082
  - Search for all Unresolved Issues (since DS-1082)
- Forgoing JIRA review for now to spend time on 3.0. Specific JIRA tickets can be brought up as needed.

#### **Discussion Topics**

- 1. 3.0 Release Schedule & Discussions
  - Discussion of latest schedule & outstanding tasks to complete
    - 3.0 Tasks List: https://wiki.duraspace.org/display/DSPACE/DSpace+3.0+Tasks
    - What is schedule for Maven Consolidation work?
    - What is schedule for RC1 release / Testathon? Need to start drafting any announcements.
  - · Outstanding questions:
    - O Do we want to pull LNI out of the "main codebase" and release as a separate 'dspace-lni' module?
    - Should Discovery be enabled by default? The question posted to dspace-devel had some good discussion, but no consensus
      yet.
- 2. Other topics?

#### **Additional Ongoing Topics**

- 1. How can we "catch up" with JIRA Backlog?
  - Do we need to "split up" the tickets & do quick reviews on our own? Or perhaps just split up tickets & do a very quick ranking & schedule ones with patches for 3.0?
  - Perhaps we schedule a "JIRA Backlog Bash" event (via IRC or similar) where we work together to decrease the backlog over a few days or a week (think of this like a "Test-a-thon" but instead we'd be working to just clear out the backlog as best we can).
- 2. Brainstorming Features/Changes for future. Can we work towards development teams around any of these projects?
  - Larger DSpace projects which seem to have a lot of recent support:
    - Moving towards a Common "Business Logic" / Business Services API. (I.e. avoiding duplication of business logic in all UIs)
    - Metadata For All (i.e. metadata on all objects), SubTopic: Getting us up-to-date how we use Dublin Core / DCMI. (Support from DCAT)
    - o AuthN & AuthZ issues, including: DS-994, DS-1006, DS-1007, DS-1088, and developer meeting on May 2, 2012
  - Other DSpace projects receiving mention recently
    - Migrate Search and Browse to DSpace Discovery
    - o "Change which UIs come out-of-the-box" (and which are optionally installed later)
    - Move configurations to DB or similar (so they can be managed/edited from Admin UI)
    - Context Guided Ingest (or Item Type based submissions)
    - Other Development Proposals

## Individual Status Updates

If you have status items to report, please enter them below at least 1 hour before the meeting starts.

### Meeting Notes

#### **Meeting Transcript**

• Full IRC Transcript is available at - http://irclogs.duraspace.org/index.php?date=2012-09-19

#### **Action Items**

(Action items go here, if any)
