Notes

Wiki pages - VIVO documentation

There was an issue with a macro in the wiki documentation pages for VIVO. It has been resolved by the Lyrasis admin team.

How to show the number of profiles or publications along with the organisation name: on the homepage department section

https://vivo-project.slack.com/archives/C8RL9L98A/p1710765114849639

Dragan and Georgy discussed the potential of displaying the number of researchers affiliated with a specific organization and the number of their publications on the homepage. They deliberated on the complexity of presenting these numbers, and whether it would be feasible using Sparkle queries. Georgy proposed creating a template with Sparkle query and including it where necessary. Dragan asked whether it might be implemented by recently merged data getter freemarker directive. Georgy explained it is possible, but it can be also implemented by using older versions of VIVO (prior to VIVO 1.15 which is in the preparation at the moment).

SPARQL issue

https://vivo-project.slack.com/archives/C8RL9L98A/p1710755682649359

Dragan and Michel discussed whether openAI can help in resolving issues like this. Michel is trying to learn an instance of domain-specific large language model to be aware of the VIVO ontology in order to be capable of resolving some issues like this one. Michel will report when have more results (in a month or two).

The #reviewers slack channel

Dragan: please join the channel to help in reviewing process - https://vivo-project.slack.com/archives/C8SDQQYJ2/p1710840507743849

Conferences and projects calls

CRIS 2024 - https://cris2024.eurocris.org/

One paper describing new features in VIVO has been submitted. Still waiting for the review process results.

PIDfest - https://www.pidfest.org/

One paper describing usage of PIDs in VIVO has been submitted. Still waiting for the review process results.

ORCID funding program - https://info.orcid.org/global-participation-program/global-participation-fund/

The DSpace community got the project for integration with the ORCID registry. There will be another call announced in April, we will probably apply for a grant.

FAIR-Impact - https://fair-impact.eu/support-offer-1-assessment-and-improvement-research-software

There are small grants for promotion of FAIRness of scholarly results funded by the FAIR-Impact project. We might apply for improvements of Software representation in the VIVO ontology and platform.

VIVO 1.14.1

Dragan discussed the publication of a patch for Vivo 1.14, aimed at mitigating security vulnerabilities - https://github.com/vivo-project/Vitro/releases

PRs

There are new PRs which should be reviewed

Time difference

Dragan announced a schedule change for future meetings due to daylight saving for North America participants. This will be returned back in the common time slot starting from April (the last weekend in the Europe the clock will be shifted ahead for daylight saving)
