

# VIVO 1.14.2 Release Announcement

April 12, 2024

VIVO 1.14.2 is now available!

## What's New in 1.14.2

VIVO 1.14.2 is a point release containing three bug fixed to the previous [1.14.0 release](#):

- [missing research areas \(and other object properties\) in profile pages](#),
- [date time interval doesn't allow end date to be equal start date](#),
- [claimed publication date precision saved as string literal](#)

Upgrading from 1.14.x to 1.14.2 should be a trivial drop-in replacement.
