Notes

ORCID-VIVO integration

VIVO committers to consider participation in the ORCID-VIVO integration project and express their interest by filling out <https://forms.gle/QHsCGy6spqJmP4JL6> till April 24th.

Configuration classes modifications for Dynamic API branch alignment

Georgy will explain rationality for merging this PR into the main branch at the next meeting. Hopefully, Brian and William will be at that meeting.

<https://github.com/vivo-project/Vitro/pull/446>

VIVO Virtual Box

Jaimin Darji found VIVO virtual box at <https://sourceforge.net/projects/vivo/files/VIVO%20Virtual%20Appliances/>

However, it is completely outdated with the last version of VIVO 1.4.1 from 2012. We can't find account for sourceforge to remove it, but we can add info this is outdated at [Virtual Appliance Installation VIVO 1.2 \(Windows\)](#)

Deprecated. This material represents early efforts and may be of interest to historians. It does not describe current VIVO efforts.

VIVO 1.15.0

Seven PRs have been merged during the last week. One more PR has been merged at the meeting (<https://github.com/vivo-project/Vitro/pull/462>). Brian will review the following PRs:

- <https://github.com/vivo-project/VIVO/pull/3954>
- <https://github.com/vivo-project/Vitro/pull/450>
- <https://github.com/vivo-project/Vitro/pull/452>

Brian also suggested including <https://github.com/vivo-project/Vitro/pull/424> in VIVO 1.15.0, the team agreed. Brian will also review this PR.

William will review:

- <https://github.com/vivo-project/Vitro/pull/442>

- <https://github.com/vivo-project/VIVO/pull/3916>
- <https://github.com/vivo-project/Vitro/pull/421>

Georgy will review:

- <https://github.com/vivo-project/Vitro/pull/460>
- <https://github.com/vivo-project/VIVO/pull/3972>

VIVO 1.14.3

Dragan asked whether VIVO 1.14.3 with the following fix should be released:

- Google image charts API not working anymore
 - <https://github.com/vivo-project/VIVO/pull/3974>

The team agreed there is a sense in publishing that. Georgy also suggested to include there also:

- Remove string literals from configuration graphs results in error
 - <https://github.com/vivo-project/Vitro/pull/462>
