

2012-09-05 VIVO Ontology Call

Due to scheduling problems with Cornell's GoToMeeting, we have moved the call to Skype for today only. Email your Skype contact info to Stella or Jon if you'd like to be added to the call.

- VIVO maintenance release 1.5.1 forthcoming. No changes to the ontology except for format of the geopolitical box in the public (not runtime) suite.
- 1.5 ontology changes summarized [here](#)
- Conference closing session, clicker questions, what should VIVO do? 2nd place: refine existing and add new information representation.
- Ontology version 1.5 published to BioPortal (<http://bioportal.bioontology.org/ontologies/1699>), still needs some refinements.
- vivoweb.org needs to be updated with the 1.5 ontology files
- New [ontology document](#) developed by Jon Corson-Rikert for appendix to the VIVO book as a reference showing the class hierarchy, with object and datatype properties defined at each level. Feedback welcome. Navigate to this from [Ontology main wiki page](#) by choosing *Ontology Visual Diagrams* then *Version 1.4 Ontology Diagrams*. (**updates for version 1.5 coming soon**)
- The VIVO ontology is involved in and will be influenced by the CTSAConnect project (Oregon Health and Science University, SUNY Stony Brook, Cornell University, University of Florida, Sharecenter). Regular updates going forward.
- Updates, issues, questions from implementation sites.
- [VIVOONT-381](#) and [vivo-dev-all message from Eliza](#). Does identifying **InternalEntity** instead of **ExternalEntity** allow for all the functionality desired?
- Can the <http://vivoweb.org/ontology/provenance-support#PersonAsListed> class be removed from the ontology? If so, shall we deprecate it for a release?
- [VIVOONT-450](#) (Move "assignee for" object property to "publications" property group)

Call-in Information

1. Please join my meeting: <https://www1.gotomeeting.com/join/956365752>

2. Use your microphone and speakers (VoIP) - a headset is recommended. Or, call in using your telephone.

Dial +1 (646) 558-2103

Access Code: 956-365-752

Audio PIN: Shown after joining the meeting

Meeting ID: 956-365-752
