2011-11-10 Development Leads Call

Please add additional agenda items or updates

Updates

1. Cornell
2. Duke
3. Florida
4. Indiana
5. North Texas
6. Stony Brook
7. Weill
8. :- Working with Cornell Ithaca to keep the linked data in sync with Weill. Copy the Harvester file vivo-additions.rdf.xml to a web interface for them to download.
9. :- Getting help from Brian Caruso on linked data builder for local multi-institutional search site. It seems to build a maximum of only 30 URIs to the index.
10. Wisconsin

Special Topics

- Update on the 1.4 release plans – refactoring of editing to support migration away from JSPs
- Meeting on visualization integration with IU developers at Cornell in December – timing

Notable Development List Traffic

- U Penn – are property inverses added through inference or do they need to be specifically inserted when ingesting data?
- U Minnesota – clarification of default namespace
  - Should this be an exception or a warning?
  - Meeting the need to support a test instance using the same data as production – the hostname in deploy.properties need not be the hostname that you deploy to for testing purposes
