2011-09-22 Development Leads Call

=Note change in time – this call will be held at 1 pm Eastern time, not 3 pm=

Agenda

- Updates
    - Cornell – *preparing for v1.3 migration and a server move*
    - Florida – *preparing to move the hosting and upgrade VIVO; Nick Skaggs is helping Thomson Reuters install and test the Harvester*
    - Indiana – *discussion reported below*
    - Weill - Cornell – *doing a large Pubmed ingest (34,000 publications on a test server). Finding journal duplicates*
    - Colorado
    - Other:

Indiana report

Chin Hua reported on work at Indiana

- they are using hourly help until a new developer is hired
- working on improving visualizations and soliciting feedback, especially on the maps of science
    - new topic matches to journals have been added based on analysis of journals from 2000-2010
- would like to see a more standardized list of journals
    - perhaps using JAbbr journal discovery service
    - *question – would a Google Refine reconciliation service be useful? where could the list be hosted? on Kasabi*
- would like to get new sites added to the NRN visualization
    - would like to explore how to know when a new VIVO instance is online – *a place has been added on the wiki homepage for sites to self-register, but most new sites stay behind firewalls until local review leads to approval for public release*
    - are manually tracking changes to counts at the moment
- Concerns/Questions
    - status of the alpha connector from VIVO to Wordpress on the SF Tools page
- Demos
    - Stony Brook
- Release 1.4 planning
- New content on the wiki
    - updates to the Ontology section
    - Weill Cornell user stories

VIVO Updates

put an item here if you have something to share about your VIVO site or VIVO-related development work

Demos

if you have something to demo, mention it here

Call-in Information

1. Please join my meeting, Thursday, September 22 at 01:00 PM EDT. https://www1.gotomeeting.com/join/232787753

2. Call in using your telephone, or use your microphone and speakers (VoIP) - a headset is recommended to avoid echo problems.

Dial 630-869-1015
Access Code: 232-787-753
Audio PIN: Shown after joining the meeting

Meeting ID: 232-787-753
