

Google Analytics Statistics in DSpace

Merged

The Google Analytics usage statistics dashboard have been merged into DSpace 5.x

See documentation for this feature at:

[DSpace Google Analytics Statistics 5.x](#)

[DSpace Google Analytics Statistics 6.x](#)

Background

The Scottish Digital Library Consortium having been using Google Analytics Statistics since August 2009 on their DSpace installations. However, these statistics can only be viewed by users with permissions for the Google Analytics Dashboard. To widen the visibility of these statistics pages have been created with DSpace to view GA stats. This code has been live in the [Edinburgh Research Archive](#) since December 2011. Statistics are displayed at the item, collection and repository level.

Code

The code for this is available on github <https://github.com/seesmith/Dspace-googleanalytics>, it is based on DSpace 1.8.1 and requires updating for DSpace 3.1
