

DevMtg 2013-03-27

Developers Meeting on Weds, March 27, 2013

Agenda

Regular Items

- "JIRA Backlog Hour" : Every Weds at 19:00UTC in #dspace IRC we will be working together to tackle our [JIRA Backlog of "Received" tickets](#). This regular meeting will continue until we've been able to catch up on our backlog.

Discussion Topics

1. DuraSpace Sponsor Summit Meeting - Any questions or discussions folks want to have out of this?
 - a. [Summit Overview Notes](#)
 - b. [Summit Presentation Slides](#)
2. Google Summer of Code 2013 - DuraSpace will NOT be putting in an application this year. Unable to find enough interested mentors in general.
3. [DSpace Futures](#) Meetings/Discussions
 - a. REST API - We have some interested folks who want to see this happen. Do we want to push this forward for 4.0, and maybe help those institutions get involved?
 - b. [Proposal to Update DC Registry and Add DCTERMS Registry](#) - Is anyone interested in possibly helping DCAT move this forward for a possible "phase I" in 4.0?
 - c. DSpace + Hydra - Some interest here, but it's still a bit undefined.
 - i. Hydra team has brainstormed what it might take to build a "DSpace-like" Hydra Head. See their [notes from LibDevConX](#).
4. [DSpace 4.0](#) planning (*may not get to this topic this week – if not, we'll discuss next week*)
 - a. Anyone interested in being on the 4.0 Release Team?
 - b. Need to start thinking about our possible release timeline, and whether there's anything we want to change from the 3.0 release timeline.

Additional Ongoing Topics

1. Brainstorming Features/Changes for future. Can we work towards development teams around any of these projects?
 - Larger DSpace projects which seem to have a lot of recent support:
 - Moving towards a Common "Business Logic" / Business Services API. (I.e. avoiding duplication of business logic in all UIs)
 - [Metadata For All](#) (i.e. metadata on all objects), SubTopic: Getting us up-to-date how we use Dublin Core / DCMI. (Support from DCAT)
 - AuthN & AuthZ issues, including: [DS-994](#), [DS-1006](#), [DS-1007](#), [DS-1088](#), and developer meeting on [May 2, 2012](#)
 - Other DSpace projects receiving mention recently
 - [Migrate Search and Browse to DSpace Discovery](#)
 - "Change which UIs come out-of-the-box" (and which are optionally installed later)
 - [Move configurations to DB or similar](#) (so they can be managed/edited from Admin UI)
 - [Context Guided Ingest](#) (or Item Type based submissions)
 - Other [Development Proposals](#)

Individual Status Updates

If you have status items to report, please enter them below at least 1 hour before the meeting starts.
