

DevMtg 2013-05-08

Developers Meeting on Weds, May 8, 2013

Agenda

Regular Items

- "JIRA Backlog Hour" : Every Weds at 19:00UTC in #dspace IRC we will be working together to tackle our [JIRA Backlog of "Received" tickets](#). This regular meeting will continue until we've been able to catch up on our backlog.
- REMINDER: Signup if you plan to attend the [OR13 DSpace Developer Mtg](#) (on Monday, July 8 before OR13)

Discussion Topics

1. [Pull Request](#) Reviews (first 10 minutes or so) - Starting with #114
2. Thurs & Fri is the DSpace 3-5 year Vision or High-Level RoadMap meeting in Chicago. Tim will report back (likely early next week) on any outcomes/drafts that come out of that meeting.
 - a. As mentioned previously, meeting is mostly about capturing use cases & features that DSpace should strive to meet in next 3-5 years.
 - b. Any draft of a 3-5 year vision that comes from this meeting will be open for feedback. One of the next steps would then likely be to use "3-5 year vision" to develop a more detailed Technical Roadmap (amongst Committers / tech folks).
3. [DSpace 4.0](#) planning
 - a. 4.0 Release Team so far: Hardy Pottinger and Mark Wood.
 - b. Need to start thinking about our possible release timeline, and whether there's anything we want to change from the 3.0 release timeline.
 - c. Obviously may want to think about trying to steer some of the [DSpace Futures](#) stuff (REST API, DC Registry updates) towards 4.0
4. Other topics?

Additional Ongoing Topics

1. Brainstorming Features/Changes for future. Can we work towards development teams around any of these projects?
 - Larger DSpace projects which seem to have a lot of recent support:
 - Moving towards a Common "Business Logic" / Business Services API. (I.e. avoiding duplication of business logic in all UIs)
 - [Metadata For All](#) (i.e. metadata on all objects), SubTopic: Getting us up-to-date how we use Dublin Core / DCMI. (Support from DCAT)
 - Related: [Proposal to Update DC Registry and Add DCTERMS Registry](#) Latest page from DCAT with the summary & goals
 - AuthN & AuthZ issues, including: [DS-367](#), [DS-994](#), [DS-1006](#), [DS-1007](#), [DS-1088](#), and developer meeting on [May 2, 2012](#)
 - Other DSpace projects receiving mention recently
 - [Migrate Search and Browse to DSpace Discovery](#)
 - "Change which UIs come out-of-the-box" (and which are optionally installed later)
 - [Move configurations to DB or similar](#) (so they can be managed/edited from Admin UI)
 - [Context Guided Ingest](#) (or Item Type based submissions)
 - Other [Development Proposals](#)

Individual Status Updates

If you have status items to report, please enter them below at least 1 hour before the meeting starts.
